charity: water

Activating the next generation of charity: water supporters

Lizbeth Macias
Role: Student · UX/Strategy Enthusiast

Why Focus On the Next Generation?

Young donors (Gen Z + young Millennials) are:

- Digital-first and socially aware
- Highly selective about the causes they support
- Motivated by transparency, stories, and measurable impact
- Quick to share meaningful content within their networks

This project explores how charity: water can evolve its messaging and digital experience to resonate deeply with this audience.

Persona Overview:

Meet Taylor — The Next Gen Changemaker

Taylor represents young supporters who want to:

- Contribute to global challenges in meaningful, measurable ways
- Support nonprofits with transparent impact reporting
- Engage with visually compelling, mobile-optimized experiences
- Join communities that reflect their values

Taylor's motivations shaped the tone, visuals, and messaging for this project.

Our Value Proposition:

charity: water makes real impact visible.

We deliver clean water to communities through transparent data, field updates, and an accountability, first approach. For young changemakers, we offer a cause where they can clearly see, and share, the difference they make.

charity: water

Landing Page Headliner:

Headline: Support clean water, witness the results

Subheadline: Empower communities with clean water and see exactly how your support leaves lasting, driven-proven results.

charity: water

Creative Strategy:

How this Experience Connects With Taylor

The landing page is intentionally designed to be:

- **Visual:** Real people, real impact, real stories
- **Transparent:** Clear presentation of where donations go
- **Mobile-first:** Easy navigation and fast engagement
- **Community-driven:** Shareable moments and social-ready assets

This ensures the experience meets the expectations of digital-native supporters.

charity: water

Brand Visuals – Color Palette & Typography:

These colors represent charity: water's trusted, optimistic tone:

- **Yellow:** Hope, optimism, urgency
- **Blue:** Clarity and trust
- **Black:** Strength, grounding, focus
- **Copper:** Warmth, humanity, accountability

Typography is clean, modern, and storytelling-friendly, essential for connecting with younger audiences.

Proxima Nova

Hero Photography:

This hero image was selected because it communicates:

- **Authenticity** — a real person doing real work
- **Human connection** — a smiling face conveys hope
- **Transparency** — on-site context shows where donations lead
- **Boldness** — bright colors highlight energy and action

It tells a compelling story in a single frame.

charity: water

Landing Page Overview:

This landing page is crafted to inspire Taylor and supporters like them.

It features:

- A powerful hero statement
- A clear, bold primary CTA
- Impact-focused visuals
- Simple, transparent explanations of where donations go
- Real stories from communities
- A mobile-first layout with scroll-friendly micro-interactions

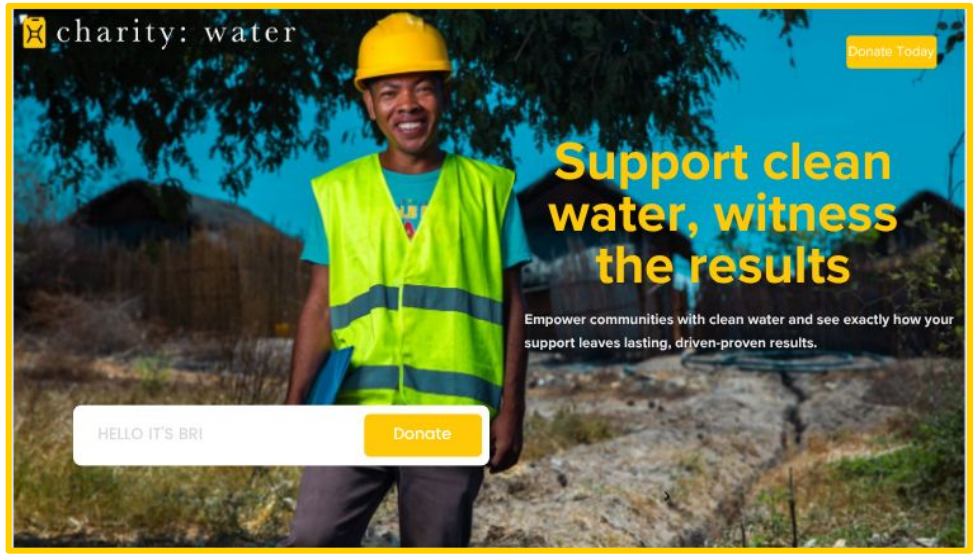
This approach blends emotion, clarity, and usability.

charity: water

Landing Page Structure:

Key Sections

1. **Hero + CTA:** Strong impact statement + emotional photo
2. **Why Water?:** Brief, data-driven explanation
3. **How It Works:** 3-step breakdown for clarity
4. **Real Impact Stories:** Humanize the mission
5. **Transparency Promise:** Show how funds are allocated
6. **Join The Movement:** Encouraging recurring giving
7. **Social Proof:** Shareable content + testimonials



Expected Outcomes:

What This Experience Aims to Achieve

- Higher engagement through emotional storytelling
- Increased trust via transparency-driven copy
- Improved mobile usability for young supporters
- Stronger conversion to recurring giving programs
- Greater social sharing and word-of-mouth growth

This approach optimizes for both impact and long-term donor relationships.

Reflection and Next Steps:

This project strengthened my skills in:

- UX strategy
- Value-proposition development
- Human-centered storytelling
- Nonprofit digital engagement

Next Steps:

- A/B testing multiple headline variations
- User interviews with Gen Z donors
- Exploring community-driven donation features
- Adding interactive elements (e.g., impact maps)
